Agenda

TIME	SPEAKER	SESSION
16:45 – 17:30 (GMT) 11:45 – 12:30 (EST)		Arrivals & refreshments
17:45 – 18:00 (GMT) 12:45 – 13:00 (EST)	Vishal Marria, CEO, Quantexa	When It Comes to Making the Right Decisions for Your Organization, More is Possible with the Right Data, in the Right Context Learn how Quantexa is partnering with organizations to help them create a competitive advantage in today's volatile environment. Hear how you can leverage technology to innovate and make easier, quicker and more informed decisions at scale. You'll also learn why success is reserved for those organizations that can connect their data from siloed and scattered points and turn it into their most trusted, reusable resource, to protect, optimize and grow.
18:00 – 18:20 (GMT) 13:00 – 13:20 (EST)	Rich Wentel, Deputy Director of the Public Sector Fraud Authority, in the UK Cabinet Office	Using Cutting Edge Data and AI Technology to Help the UK Government Hunt Down Fraudsters When the Public Sector Fraud Authority was set up in 2022 to help UK public bodies tackle fraud against the public purse, they partnered with Quantexa to leverage cutting edge Decision Intelligence technology and the power of Artificial Intelligence to find and prevent fraud across the public sector. Building on their successful work to reveal fraud within the government's Bounce Back Loan Scheme, learn how the PSFA is modernizing the UK government's counter fraud response efforts.
18:20 – 18:40 (GMT) 13:20 – 13:40 (EST)	Peter Hazlewood, Group Chief Security Officer, Prudential plc	Customer Centricity in Fraud Risk Management Within the Insurance Sector Insurers seek to put their customers first in managing fraud risks. Hear about the universe of insurance fraud risks, the key fraud and bribery risks impacting insurers today and how leading insurers are addressing these risks resulting in direct benefits for customers and shareholders. Also hear how Asia and Africa focused insurer, Prudential, is innovating through the deployment of decision intelligence to fortify their supply chain and empower investigators to conduct due diligence, continuously monitor for risk, and stop potential fraud in its tracks.
18:40 – 19:00 (GMT) 13:40 – 14:00 (EST)	Miryem Salah, Chief Data Officer & Head of Transformation & Planning, Vodafone	Delighting Customers and Unlocking New Opportunities with a 360-Degree Customer View As a leading technology communication company, Vodafone is continually accelerating innovation to drive business growth. To improve the experience of their customers, Vodafone uses Quantexa's Decision Intelligence platform on Vodafone's new Google Cloud environment to marry difficult to match data sets across their business and gain insights into customer interactions, evolve their approach to support, and confidently empower their teams to introduce new products and services in a timely fashion. Hear about the impact of this work and Vodafone's future vision for deploying Decision Intelligence across different lines of business and use case scenarios to achieve greater efficiency.

Agenda (Continued)
